Join us for the Petrie-Flom Center's 2014 Annual Open House!

October 6, 2014 5:30 - 7:00 PM
Wasserstein Hall, Milstein East B, 1585 Massachusetts Ave., 2nd floor, Cambridge, MA

Come learn more about what the Petrie-Flom Center does and how you can get involved at this gathering for faculty, colleagues, and students with shared interests in health law policy, biotechnology, and bioethics. We will review our sponsored research portfolio, introduce our staff and fellows, describe various opportunities for students and others, and demonstrate key features on our website. And of course, we'll eat, drink, and be merry. Hope to see you there!

The Open House reception will immediately follow the Legal and Ethical Issues in Health Start-Ups Panel.

Petrie-Flom Center Executive Director Named Newest Member of SACHRP

Holly Fernandez Lynch, J.D., M.Bioethics, Executive Director of the Petrie-Flom Center at Harvard Law School, has been appointed by Secretary of Health and Human Services Sylvia Burwell to a four-year term as a member of the Secretary’s Advisory Committee on Human Research Protections (SACHRP). SACHRP is a Federal Committee charged with providing expert advice and recommendations to the Secretary on issues and topics pertaining to the protection of human research subjects. To date, SACHRP has focused its attention on areas such as research involving children, prisoners, and individuals with impaired decision-making capacity; informed consent and the use of biospecimens; harmonization of human subjects regulations and guidance; the reduction of regulatory burden; the HIPAA Privacy Rule; community-engaged research, and accreditation.

Holly will bring a range of expertise in human subjects research to this new role from her prior experience in private practice counseling pharmaceutical company clients on clinical research issues, her work as a bioethicist advising the Division of AIDS on research ethics in the setting of HIV/AIDS trials, and her service as a staff member supporting President Obama’s Commission for the Study of Bioethical Issues, where she worked on Ethically Impossible: STD Research in Guatemala from 1946-1948. Holly has served as a member of the Institutional Review Board at The Fenway Institute, and as a member of expert working groups at the Regional Clinical Trials Center at Harvard. Alongside Petrie-Flom Center Faculty Director Glenn Cohen, Holly is Co-Lead of the Football Players Health Study at Harvard University, as well as Co-Lead of the Center's Involvement...

Please join us in congratulating Holly on her new appointment!

**FDA Proposal for Regulating Laboratory Diagnostics Improve Patient Care**

*Rachel Sachs (Academic Fellow)*

*Hastings Center Bioethics Forum, September 4, 2014*

From the article:

[...] [T]he FDA's proposal [to regulate laboratory-developed tests] ... could improve patient care by collecting, for the first time, validity data on tens of thousands of LDTs in current use. And by using an extensive system of carve-outs, the FDA is seeking to minimize potential harms for diagnostic innovation. Understanding these key portions of the FDA's disclosure to Congress is critical to a full policy discussion of the situation. [...]

An Interview with I. Glenn Cohen on Controversial Health Issues
*Tavis Smiley, interviewing I. Glenn Cohen*
*PBS.org, September 9, 2014*

In an interview with PBS, Faculty Director I. Glenn Cohen, sat down with Tavis S to discuss important health issues, such as experimental Ebola drugs and prescription use in the U.S.

From the interview:

[...] Smiley: Let me start with your assessment of - it's been a little while now - assessment of how this Ebola crisis has been handled to date.

Cohen: So I think the general sense of people who work in public health is that it's been a very strong handling of it. There were about 20 Ebola outbreaks since 1976 was predictable that this was coming. You had the first index case in December this outbreak, but it took until August for the WHO to declare a public health emergency and only more recently has it issued its roadmap. And in general, I think most feel as though this could have been contained much more quickly. And one of the things we have to have done that would have been to do more capacity-building of the infrastructure in many of these countries. [...]

We’re adding new events all the time! And remember, you can find materials from most events, including slide presentations and full event videos, online in our events archive.

A Conversation with the HHS Office of the Inspector General
Tuesday, September 30, 2014, 12:00 PM
Wasserstein Hall, Room 3018, 1585 Massachusetts Ave., Cambridge, MA

Please join the Petrie-Flom Center for a conversation with the Boston office of the U.S. Department of Health and Human Services Office of the Inspector General. OIG has for decades served as the foremost government watchdog of federal healthcare programs, overseeing Medicare, Medicaid, the Food and Drug Administration, the National Institutes of Health, and the Centers for Disease Control and Services. Among other topics, the Boston office’s recent work has focused on the labeling of dietary supplements and human subjects protections, including informational risks associated with biospecimen research and other topics.

Come hear about the work of the OIG, its role in the Department of Health and Services, and some of its current and past projects. We will be joined by Joyce Greenleaf, MBA, Regional Inspector General, and Jessica Fargnoli, MPH, Program Analyst. Matthew Lawrence will moderate.

Lunch and refreshments will be served. Co-sponsored by the Petrie-Flom and Harvard Catalyst.

Emerging Issues and New Frontiers for FDA Regulation
Monday, October 20, 2014, 8:00 AM - 5:00 PM
Washington, DC

The Petrie-Flom Center for Health Law Policy, Biotechnology, and Bioethics at Harvard
School and the Food and Drug Law Institute are pleased to announce this collaborative academic symposium.

The full agenda is now available on our website. Registration for this event is open online.

A limited number of free seats are available to Harvard affiliates. For more information or to request a seat, please email us at petrie-flom@law.harvard.edu.

For questions, contact Davina Rosen Marano at dsr@fdli.org.

Legal and Ethical Issues in Healthcare Start-Ups
Monday, October 6, 2014, 4:00 PM
Wasserstein Hall, Milstein East B, 1585 Massachusetts Ave., 2nd floor, Cambridge, MA

New healthcare start-ups face a range of legal and ethical challenges as they develop new products and services and solicit financial support from investors. Building on the success of the President's Challenge at the Harvard Innovation Lab, which invites teams of Harvard students to develop innovative solutions to a range of global issues including healthcare accessibility and affordability, the Petrie-Flom Center will host a discussion of the issues that past winners of the President's Challenge have faced as they seek to move their ideas out of the lab and into the private sector.

Panelists include:

- **Patrick Ho**, HLS '12, Co-Founder, VP of Operations and Legal Affairs, Technologies
- **Dr. Hitesh Tolani**, Virtudent
- **John Quelch**, Charles Edward Wilson Professor of Business Administration, HBS
- **Gordon Jones**, Managing Director, i-lab
- Moderator: **I. Glenn Cohen**, Petrie-Flom Center and HLS

The panel discussion will be followed by the Petrie-Flom Center's Annual Open House reception. Join us to learn more about the Petrie-Flom Center's work!

Petrie-Flom Center Annual Open House - 2014
October 6, 2014 5:30 - 7:00 PM
Wasserstein Hall, Milstein East B, 1585 Massachusetts Ave., 2nd floor, Cambridge, MA

Come learn more about what the Petrie-Flom Center does and how you can get involved at this gathering for faculty, colleagues, and students with shared interests in health law policy, biotechnology, and bioethics.

We will review our sponsored research portfolio, introduce our staff and fellows, describe various opportunities for students and others, and demonstrate key features on our website. And of course, we'll eat, drink, and be merry. Hope to see you there!

The Open House reception will immediately follow the Legal and Ethical Issues in Healthcare Start-Ups Panel.

Book Launch: Human Subjects Research Regulation: Perspectives on the Future
Wednesday, October 22, 2014, 12:00 PM
Harvard Law School Library, Langdell Hall, Caspersen Room, 1557 Massachusetts Ave, 4th floor, Cambridge, MA
MIT Press recently published Human Subjects Research Regulation: Perspectives on the Future (2014), co-edited by Petrie-Flom Faculty Director, I. Glenn Cohen, and Executive Director, Fernandez Lynch. This edited volume stems from the Center's annual conference, which brought together leading experts in a conversation about whether and how the current system of human subjects research regulation in the U.S. ought to change to fit evolving trends, fill substantial gaps, and respond to identified shortcomings.

Please join us for a discussion of the book, pending efforts to amend federal research regulations, and some of the biggest unresolved questions in this space:

- **I. Glenn Cohen**, co-editor, Petrie-Flom Faculty Director, Professor of Law at Harvard Law School
- **Holly Fernandez Lynch**, co-editor, Petrie-Flom Executive Director
- **Barbara E. Bierer**, Multi-Regional Clinical Trials Center at Harvard University
- **Michelle N. Meyer**, Union Graduate College - Icahn School of Medicine

This event is free and open to the public. A light lunch will be served.

Co-sponsored by the Harvard Law School Library.

**REGISTER NOW!**

2015 Annual Conference: Law, Religion, and American Health Care

May 8 - 9, 2015, 8:00 AM - 5:00 PM

Wasserstein Hall, Milstein East BC, 1585 Massachusetts Avenue, Cambridge, MA

The Petrie-Flom Center for Health Law Policy, Biotechnology and Bioethics at Harvard Law School is pleased to announce plans for our 2015 annual conference, this year entitled: "Law, Religion, and American Health Care."

Registration for the conference is now open! Register online.

Conference Description

Religion and medicine have historically gone hand in hand, but increasingly have come into conflict in the U.S. as health care has become both more secular and more heavily regulated. Law has a dual role here, simultaneously generating conflict between religion and health care, for example through new coverage mandates or legally permissible medical interventions that violate religious norms, while also acting as a tool for religious accommodation and protection of conscience.

This conference, and anticipated edited volume, will aim to: (1) identify the various ways in which law intersects with religion and health care in the United States; (2) understand the role of law in creating or mediating conflict between religion and health care; and (3) explore potential legal solutions to allow religion and health care to simultaneously flourish in a culturally diverse nation.

**Call for Abstracts**

We welcome submissions on both broad conceptual questions and more specific issues. Potential topics might include:

- Analysis of the First Amendment, the Religious Freedom Restoration Act, at federal, state, and local legal provisions that come into play at the inte
between religion and health care

- The Affordable Care Act and employer-based health care coverage, including contraceptives mandate and related court decisions
- Legal obligations and accommodations of religious health care organizations
- Protection (or not) of health professional conscience
- Health care decision-making for minors with religious parents
- Religious objection versus discriminatory behavior
- Informed consent and information flow, e.g., religious objection to providing information, inclusion of religious information in consent disclosures, etc.
- "Medicalization" of religious beliefs, e.g., regulation of homosexual conversion therapy
- Abortion policy, including clinic protests and protections, and its relationship to religion
- Embryonic stem cell policy and its relationship to religion
- End-of-life care, including assisted suicide, and its relationship to religion
- Complicity as both a legal and religious concept
- Comparative analysis, e.g., between professions, health care practices, countries, etc.

If you are interested in participating, please send a 1-page abstract of the paper you plan to present to petrie-flom@law.harvard.edu as soon as possible, but not later than December 1, 2014.

Additional information about abstract submission and registering for the conference can be found here. Please contact petrie-flom@law.harvard.edu with questions.

Save the Date for More Upcoming Petrie-Flom Events!

- **Transparency in the Global Food System: How Much Information and to What Ends?**; October 24 - 25, 2014, 8:00 AM - 2:00 PM
- **Law of Ethics and Non-Invasive Prenatal Testing**; Thursday, November 6, 2014
- **Book Launch: Patients with Passports: Medical Tourism, Law, and Ethics**; Wednesday, November 19, 2014
- **Petrie-Flom Reception at 2014 PRIM&R Annual Conference** December 5, 2014

**Public Ethics Forum: "Remembering Bud Relman and His Contributions to Medical Ethics"**

**Thursday, October 9, 2014, 4:30 - 6:00 PM**

Harvard Medical School, [Benjamin Waterhouse Room, Gordon Hall, 25 Shattuck Street, Boston, MA](https://ui.constantcontact.com/visualeditor/visual_editor_preview.jsp?agent.uid=1118429257637&format=html&print=true)
This past June the profession of medicine lost one of its most visionary leaders, Arno Relman. Dr. Relman made many remarkable contributions to medicine, but for this we will focus on his contributions to the field of medical ethics. Bud was deeply engaged in many of the most contentious ethical issues of his time, especially those related to the delivery of healthcare and to maintaining the integrity of the research enterprise. The thread that ran through the fabric of all these issues was his deep commitment to professional and personal ethical integrity, without which he believed the profession would fail. In his own writing and in the encouragement he gave to others through publishing their work in the Journal, he gave these issues a voice they would not otherwise have had.

Jerome Kassirer, who succeeded Bud Relman as Editor-in-Chief of the New England Journal of Medicine, will be our guest for this session. Robert Truog will moderate. We plan to cover several of the ethical themes that occupied Dr. Relman's interests and attention, and will engage with the audience in reflecting upon Bud's life and work.

Please RSVP [here](https://ui.constantcontact.com/visualeditor/visual_editor_preview.jsp?agent.uid=1118429257637&format=html&print=true).

**Introduction to Translational Medicine**

**September 29 - October 1, 2014**

Sheraton Commander Hotel, 16 Garden Street, Cambridge, MA

Petrie-Flom Executive Director, [Holly Fernandez Lynch](https://ui.constantcontact.com/visualeditor/visual_editor_preview.jsp?agent.uid=1118429257637&format=html&print=true) will be teaching a session on Ethics of Human Research.

**Course themes:**

- Preclinical Discovery
- Clinical and Experimental Pharmacology
- Conflicts of Interest
- Leadership and Team Dynamics in Research
- Ethics of Human Research
- Academic/Industrial Relationships in Drug Development

**Eligibility**

- MD, DMD, PharmD, DNP, PhD, or equivalent
- Involvement in basic or clinical research
- Endorsement from immediate supervisor

Tuition-free for Harvard-affiliated institutions. Harvard Catalyst Education Program's policy requires full attendance and completion of all activity surveys to be eligible for CME credit; no partial credit is allowed.

Utilizing both case studies and a didactic curriculum, Introduction to Translational Medicine (ITTM) is a survey course that offers an introduction to the skills necessary to embark on a career in translational research, particularly in the process of bringing an idea from the laboratory to first-in-human trials (called T1 translational research). This course focuses on the principles and practices of translational medicine as they apply to the development of a new drug (small molecules and/or biologics), device, or diagnostic. Case studies allow participants to grasp the realization of the concepts discussed. Each attendee receives training in the pre-clinical development of novel targets and leads, clinical pharmacology, the regulatory process, and design of the first-in-human clinical trial. In addition, participants learn about funding opportunities for translational research, as well as how to navigate academic/industrial collaborations that lead to the successful development of new methodologies.

For more information about the course, including application information, please visit [course description](https://ui.constantcontact.com/visualeditor/visual_editor_preview.jsp?agent.uid=1118429257637&format=html&print=true) or email [ittmcourse@catalyst.harvard.edu](mailto:ittmcourse@catalyst.harvard.edu).
"Autonomy's Price: Choosing Not to Choose"
Thursday, October 30, 2014, 4:30 PM
Harvard Medical School, Armenise Building, D Amphitheater, 210 Longwood Avenue, Boston, MA

Cass R. Sunstein, JD, Robert Walmsley University Professor, Harvard Law School.

The George W. Gay Lecture
is the oldest endowed lectureship at Harvard Medical School, and quite possibly the oldest medical ethics lectureship in the United States. The lectureship was established in 1$1,000 gift from Dr. George Washington Gay, an 1868 graduate of HMS. Since its inception, many of the nation's most influential physicians, scientists, researchers and social observers, including Erich Fromm, Felix Frankfurter, Margaret Mead, Elizabeth Kübler Ros Wilson, and Joshua Lederberg have given the Gay Lecture. Elie Wiesel, Marian Edelman, Paul Krugman, Nicholas Kristof and Donald Berwick have given recent Lectures.

RSVP Here.

Outside Events

Cutting-Edge Issues in the Ethics of Conducting Biomedical Research
New York University Langone Medical Center Division of Medical Ethics
Thursday, October 9, 2014, 7:45 AM - 2:15 PM
Saul Farber Auditorium, Bellevue Hospital, 27th Street and First Ave, New York City.

Informed consent and Institutional Review Boards (IRBs) are the cornerstones of bioethical research but they do not solve all of the complicated issues of science, just coercion that such studies raise. The NYULMC Division of Medical Ethics invites you to a provocative program on cutting-edge issues in the ethics of conducting biomedical research. Attendees will learn from leading experts and engage in discussions of current controversies ranging from understanding 'minimal risk' in studies that involve socially vulnerable populations to the ethics of randomized controlled trials without consent. Other topics to be covered include the contemporary implications of the U.S.-led sexually transmitted research conducted on Guatemalans during the 1940s; new strategies and technologies for improving informed consent; and the vexing issue of compassionate use.

 Opportunities at Harvard

Health Acceleration Challenge
**Harvard Business School and Harvard Medical School**  
*Application Deadline: September 29, 2014*

**Apply Now!**

We are thrilled to announce that the [HBS- HMS Health Acceleration Challenge](https://ui.constantcontact.com/visualeditor/visual_editor_preview.jsp?agent.uid=1118429257637&format=html&print=true) has gone live.

Innovations must have credible, demonstrated evidence of their value proposition (cost savings, outcomes improvement, patient satisfaction, etc.); have a clear dissemination plan; and be at the cusp of scaling.

Finalists get a case written about them, share $150,000, and have the opportunity to present at the Forum on Health Care Innovation conference in April. Please let us know if you need any other information or materials. We are happy to provide them.

We're looking for proven ideas that have the potential to do great things for the U.S. care delivery system. It is widely known that health care innovations are much slower to disseminate than comparable solutions in other industries. We want to help speed up the process. What's your innovation?

Innovations must have credible, demonstrated evidence of their value proposition (cost savings, outcomes improvement, patient satisfaction, etc.); have a clear dissemination plan; and be at the cusp of scaling.

For more information, please visit the [website](https://ui.constantcontact.com/visualeditor/visual_editor_preview.jsp?agent.uid=1118429257637&format=html&print=true).

**Other Opportunities**

**NEW POST**  
**CPMC-Bioethicist West Bay Region**  
*Program in Medicine & Human Values, California Pacific Medical Center*  
*Open until filled.*

The Bioethicist West Bay Region ("WBR"), under the supervision of the Director PMHV Senior Ethics Scholar and CPMC Bioethicist, will be the key provider of ethics expertise to Sutter West Bay Hospitals. This position will support the Ethics Committees of Sutter West Bay Hospitals by receiving and coordinating all requests for ethics consultations, executing consultations and following up with cases after referral. The Bioethicist WBR will be responsible for educating and training the hospital ethics committees of Sutter West Bay Hospitals using materials developed by the PMHV on the basis of the consultation model used at CPMC.

To apply online, please click [here](https://ui.constantcontact.com/visualeditor/visual_editor_preview.jsp?agent.uid=1118429257637&format=html&print=true).

**NEW POST**  
**Health Policy & Administration Assistant Professor**  
*Department of Health Sciences, DePaul University*  
*Application Deadline: November 15, 2014*

A tenure-track assistant professor position is available in the Department of Health Sciences at DePaul University starting September 2015. The successful candidate will be trained in health policy and administration or management. The subfield and concentration are open though the department is particularly interested in applicants with expertise in health policy, public policy, health care administration, health care management, health care leadership, or health care finance. A Ph.D. or equivalent degree is required. Previous teaching experience preferred.
To apply online, please click here.

**NEW POST**  
**Full-Time/Part-Time Clinical Ethicist**  
**Office of Ethics, Boston Children’s Hospital**  
Open until filled.

The Office of Ethics at Boston Children’s Hospital is immediately seeking a full-time Ethicist or two part-time Clinical Ethicists. At BCH, each Clinical Ethicist provides for informal ethics consultations, organizes and participates in clinical ethics roun, collaborates with clinical teams, patients and families, to address ethical issues in ; health care and research. The Clinical Ethicist develops ethics resources and educa serves as a facilitator for change directed toward strengthening the Hospital staff's moral responsibility and moral community.

To apply online, please click here.

**NEW POST**  
**HRPP Quality Assurance/Quality Improvement Specialist**  
**Human Research Protections Program, Massachusetts Eye and Ear**  
Open until filled.

Under the supervision of the Director of the Human Research Protections Program (HRPP), the HRPP Quality Assurance/Improvement and Education Specialist is responsible for providing on-going support and education to the clinical research comm. Massachusetts Eye and Ear Infirmary and Schepens Eye Research Institute to compliance with applicable institutional, FDA, OHRP, HIPAA, and GCP requirement and ethical guidelines. In addition, the incumbent works with the Director to identify, deve implement new QI initiatives and to perform directed and routine on-site reviews of Human Studies Committee (HSC)-approved studies. Notably, the Quality Assurance/Quality Improvement and Education Specialist is responsible for coordinating and overseeing the initial accreditation of Mass. Eye and Ear's HRPP, maintaining accreditation of the HRPP thereafter, working closely with the Director, other key stakeholders throughout the organization.

To apply online, please click here.

**NEW POST**  
**Research Program Coordinator**  
**Institute of Bioethics, John Hopkins Berman Institute**  
Open until filled.

A perfect position for someone looking to gain experience prior to graduate training in bioethics. The Research Program Coordinator will work with two or three primary members at the Johns Hopkins Berman Institute of Bioethics to coordinate and research support for numerous academic and empirical projects and their component position’s major areas of focus include participating in the development of an ed course; sustaining an ethics summit collaborative; editorial and project management of research support; and administrative tasks.

To apply online, please click here.

**NEW POST**  
**Clinical Ethics: Assistant or Associate Professor**
Children’s Ethics Center, Cincinnati Children’s Hospital Medical Center
Open until filled.

Cincinnati Children’s Hospital Medical Center (CCHMC) invites applications for a position in clinical ethics at the rank of Assistant or Associate Professor. The faculty member is expected to be an active member of the Ethics Committee and Ethics Consultation Subcommittee. He/she will also support specialty areas such as the Fetal Care Center, Intensive Care Unit, and/or Solid Organ Transplant Programs.

Interested applicants should send a letter of interest and a CV to:

Armand H. Matheny Antommaria, MD, PhD, FAAP
Director, Ethics Center
Cincinnati Children’s Hospital Medical Center
c/o Elizabeth Kerstine
HR Consultant
Cincinnati Children’s Hospital Medical Center, 3333 Burnet Avenue, MLC
16056, Cincinnati, OH 45229

For more information, please click [here](#).

NEW POST
Cleveland Fellowship in Advanced Bioethics
Department of Bioethics, The Cleveland Clinic Foundation
Application Deadline: November 1, 2014

The Cleveland Fellowship in Advanced Bioethics (CFAB) is a two-year, full-time program designed to train the next generation of leaders in the field of bioethics. Applications are considered from professionals with terminal post-graduate degrees in medicine, philosophy, nursing, social work, religious studies, law, and other fields related to the practice of clinical and academic bioethics. Completed applications must be submitted by November 1 and the starting date for the fellowship is July 1 of each year.

For more information and to apply, please click [here](#).

NEW POST
Research Ethics: Assistant or Associate Professor
Children’s Ethics Center, Cincinnati Children’s Hospital Medical Center
Open until filled.

Cincinnati Children’s Hospital Medical Center (CCHMC) invites applications for a position in clinical ethics at the rank of Assistant or Associate Professor. The faculty member will be expected to develop a research program that contributes to a fuller understanding of ethical issues in research. The faculty member will also be expected to participate in education and in administrative service.

Interested applicants should send a letter of interest and a CV to:

Armand H. Matheny Antommaria, MD, PhD, FAAP
Director, Ethics Center
Cincinnati Children’s Hospital Medical Center
c/o Elizabeth Kerstine
HR Consultant
Cincinnati Children’s Hospital Medical Center, 3333 Burnet Avenue, MLC
16056, Cincinnati, OH 45229

For more information, please click [here](#).
**NEW POST**

**Director, Master of Arts in Bioethics Program**

Emory University Center for Ethics and Laney Graduate School

**Application Deadline: September 29, 2014**

The Center for Ethics at Emory University seeks a bioethics scholar to direct our Master of Arts in Bioethics (MAB) program. Rank and area of specialty are open. The ideal candidate will have experience teaching bioethics at the graduate or professional level, organizational and leadership experience, and a solid record of bioethics scholarship. Experience helping run a masters-level program in bioethics or related field is a plus. A PhD or prof equivalent in a bioethics-related discipline, or an advanced degree in a related field with at the masters or fellowship level in bioethics is required. The Director will teach courses/year in the MA program, with some teaching in other Emory schools as well. Candidates should provide a letter of interest, including a description of personal scholarship and a statement of teaching philosophy; a full CV; and the names and contact information of three references to:

Jamila Garrett-Bell  
Center for Ethics, Emory University  
1531 Dickey Drive  
Atlanta, Georgia 30322, or email to jrgarre@emory.edu.

Non-procedural inquiries should be directed to Kathy Kinlaw, Center for Ethics A Director, at kkinlaw@emory.edu.

**NEW POST**

**2014 Health Law Student Scholarship: The Healthcare Compliance Certification Program and the Life Sciences Compliance Program**

**Application Deadline: February 6, 2015**

The Center for Health & Pharmaceutical Law & Policy Healthcare Compliance Certification Program 2014 Health Law Student Scholarship: The Healthcare Compliance Certification Program and the Life Sciences Compliance Program are both multi-day educational programs that address the myriad of legal and compliance issues faced by the pharmaceutical and medical device industries.

**Purpose:** These scholarship awards recognize promising health law students, aptitude for and commitment to a career in health law, focusing on legal and compliance issues within the pharmaceutical, biotech, and medical technology industries.

**Eligibility:** Each nominee must qualify under the following criteria:

- The nominee shall be a 2L or part-time 3L student currently enrolled in an accredited North American law school. 3L students who anticipate graduating in May 2015 are not eligible.
- The nominee, through his or her law school academic and clinical work or related activities, shall demonstrate an aptitude for and commitment to a legal health care law within the pharmaceutical, biotech, and/or medical technology industries.
- The nominee must be available to attend either the June 8-11, 2015, Healthcare Compliance Certification Program in New Jersey, or the Fall 2015 Life Sciences Compliance Program in California.
- Multiple nominations per law school may be made.

**Application:** The following materials must be submitted by the nominee (the submission of additional material is not encouraged):

1. A signed letter, from either the Dean, clinical program director, or law school professor teaching in a health law or related area, nominating the candidate and setting forth the
basis for the nomination, including a description of the purpose and content of the class or clinical program in which the student is enrolled (please submit nomination letter electronically followed by original mailed copy).

2. The nominee’s current resume, including most recent GPA (electronic copy required).

3. A list of all health law courses completed and those in which the nominee is currently enrolled.

4. A brief personal statement of no more than two (2) typewritten pages highlighting the nominee’s background, experience, and other relevant information that qualifies her to receive the scholarship (electronic copy required).

5. Identification of which scholarship the nominee is applying for: the Healthcare Compliance Certification Program in New Jersey, or the Life Sciences Compliance Program in California.

Judging:

1. All applications will be judged by members of the Seton Hall Law School Faculty. All decisions are final.

2. All applications will be judged on the strength of the eligibility criteria, letter of nomination, and personal statement.

3. No scholarship will be awarded if the faculty members determine that no applicant meets the scholarship eligibility standards.

4. For the Life Sciences Compliance Program, preference will be given to nominees currently attending law school in the Western United States.

Awards: Two scholarships (each a $2,400 value) for the Healthcare Compliance Certification Program will be awarded in 2015. Scholarship recipients must attend the Jurisprudence Healthcare Compliance Certification Program.

One scholarship ($2,500 value) for the Life Sciences Compliance Program will be awarded in 2015. The scholarship recipient must attend the Fall 2015 Life Sciences Compliance Program.

The scholarship covers tuition, educational materials, breakfast (if applicable), lunch, and parking (if applicable) during the program. Please note that transportation and hotel costs are not included.

Deadline and Submission: Submission deadline: February 6, 2015
