Radical Redesign of Health Care and Its Implications for Policy: A Lecture by Don Berwick, Administrator of the Centers for Medicare and Medicaid Services (2010-2011)

June 2, 2016 6:00 PM

[Milstein East ABC, Wasserstein Hall, Harvard Law School](#)

[1585 Massachusetts Ave., Cambridge, MA](#)

Don Berwick is one of the United States' leading advocates for high-quality healthcare. From July 2010 to December 2011, he served as the Administrator of the Centers for Medicare and Medicaid Services. For 22 years prior to that, he was the founding CEO - and now President Emeritus and Senior Fellow - of the Institute for Healthcare Improvement, a nonprofit dedicated to improving healthcare around the world. A pediatrician by background, he has also served on the faculties of the Harvard Medical School and the Harvard School of Public Health.

Dr. Berwick sees tremendous unrealized potential in American medicine. Despite our outstanding knowledge base, expert practitioners, and world-class equipment, too many Americans do not have access to safe, high-quality care. Dr. Berwick presents a vision of how, through continual improvement, innovations in healthcare delivery, stronger leadership, and smarter policy, America can forge a system that satisfies our patients, achieves better outcomes, respects our limited resources, and honors our moral imperative to care for the disadvantaged. His focus on improving quality has gained him a reputation as a powerful motivator who can encourage institutions and individuals to do their work better.

This event is free and open to the public, but seating is limited and registration is required. [Register now!](#)
