Journal of Law and the Biosciences publishes Harvard Law School student work

The Journal of Law and the Biosciences, the new open-access journal launched this year by the Petrie-Flom Center and Harvard Law School in partnership with Duke University and Stanford University, has published several articles in recent weeks by Harvard Law School students:

- Nicholas Meyers, Cook v. FDA and the importation and release of lethal injection drugs, J Law Biosci first published online May 2, 2014.
- Ashish M. Bakshi, Gene patents at the Supreme Court: Association for Molecular Pathology v. Myriad Genetics, J Law Biosci first published online May 2, 2014.
- Adriana Lee Benedict, State-level legislation on follow-on biologic substitution, J Law Biosci first published online May 2, 2014.
- Komal Kamnik, FDA regulation of clinical decision support software, J Law Biosci first published online April 28, 2014.

Full text of these articles is available for free online. You can also visit the Journal’s website to learn more about the Journal of Law and the Biosciences.

2014 Petrie-Flom Center Annual Conference: Keynote Address
Harvard Law Today featured Cass Sunstein's keynote address at the 2014 Petrie-Flom Center Annual Conference, "Behavioral Economics, Law, and Health Policy." Sunstein, who is the Robert Walmsley University Professor at Harvard Law School and the co-author of Nudge: Improving Decisions About Health, Wealth, and Happiness, addressed the opening day of the conference on May 2, 2014, on the subject of "Choosing Not to Choose."

Full video of the conference will be available soon via the Petrie-Flom Center's website. In the meantime, you can read about and view Sunstein's keynote address here.

Scholarship & Commentary from Petrie-Flom Affiliates

Senior Associate Robin Pierce Appointed to Editorial Board of Journal of Bioethical Inquiry

Petrie-Flom, June 25, 2014

Robin Pierce, J.D., Ph.D., Senior Law and Ethics Associate with Petrie-Flom, has been appointed to the Editorial Board of the Journal of Bioethical Inquiry. She will take on the role of Associate Editor for Science and Genetics. The Journal of Bioethical Inquiry (JBI!) is an international, multidisciplinary, peer-reviewed journal that publishes rigorous, scholarly papers and commentary across the range of conventional and emerging issues in bioethics. JBI further seeks to create a multidisciplinary forum for generating reflective debate and analysis, encouraging differences of thought and novel approaches, and connecting diverse voices in global conversations to promote greater understanding across disciplines, ideologies, and geographical borders.

Using Big Data To Transform Care: A Briefing on the July 2014 Special Issue of Health Affairs

Health Affairs, July 9, 2014, 9:00am - 12:30pm
Featuring I. Glenn Cohen (Faculty Director)

The application of big data to transform health care delivery, health research, and health policy is underway, and its potential is limitless. The July 2014 issue of Health Affairs, "Using Big Data To Transform Care," examines this new era for research and patient care from every angle.

You are invited to join Health Affairs Editor-in-Chief Alan Weil on Wednesday, July 9, for an event at the National Press Club, when the issue will be unveiled and authors will present their work.

Panels will cover:

- Using Big Data At The Point Of Care
- Research Issues
- The Role Of The Federal Government
- Obstacles/Challenges Of Using Big Data

WHERE:
Doctors pushed to reject role in executions

Rachel Maddow, interviewing J. Glenn Cohen
"The Rachel Maddow Show," MSNBC, June 17, 2014

Faculty Director J. Glenn Cohen appeared on The Rachel Maddow Show to discuss his recent opinion piece in JAMA, coauthored with Robert D. Truog and Mark A. Rockoff (both of Harvard Medical School), on "Physicians, Medical Ethics, and Execution by Lethal Injection." In the piece, Cohen et al. argue that medical specialty boards should withdraw board certification from members who participate in executions.

From the interview:

...we think it [execution] is totally incompatible with the role of the doctor. A doctor is about healing. A doctor is about soothing pain. A doctor is not meant to be conscripted by the state to make what is the involuntary killing of another person look as though it's a medical procedure, like getting your teeth pulled or putting your dog to sleep. It's kabuki theater, Rachel, and we think doctors should stand up. Whatever your position is on capital punishment, it's wrong to make this procedure look like medicine. That's not what it is. [...]

**Post-Trial Access to Medicines: Responsibilities and Implementation**

**Thursday, September 18, 2014, 7:30AM - 5:30 PM**

Wasserstein Hall, Milstein East AB, [1585 Massachusetts Ave., Cambridge, MA](#)

Registration for the conference is open now! [Register online](#).

Law, policy, and guidance are vague, sometimes conflicting, and generally lacking in concrete solutions for questions regarding post-trial responsibilities. The issues are complex and demand thoughtful discourse to move the clinical trial enterprise towards meaningful solutions. Areas that currently lack clarity include:

- What types of interventions or resources should be included within post-trial responsibilities?
- What is a reasonable duration for post-trial responsibilities to extend?
- What is the mission and purpose of various stakeholders in the conduct of clinical research and how do these roles intersect with post-trial access responsibilities?

This conference will bring together diverse stakeholders to address and develop consensus around some of these questions.

**Objectives:**

- To discuss implications of international guidance on post-trial responsibilities for clinical research sponsors, investigators, and other stakeholders
- To articulate and understand the range of perspectives on post-trial responsibilities
- To draw lessons from successful and unsuccessful attempts to implement post-trial access policies
- To discuss potential scenarios and practical solutions for post trial responsibilities that may inform policy in this important area moving forward
- To identify key priorities for a Post-Trial Responsibilities Working Group to be launched by the Multi-Regional Clinical Trials Center at Harvard.

A draft agenda is available on our [website](#).

**Cosponsored with the Multi-Regional Clinical Trials Center** at Harvard University.
The Petrie-Flom Center for Health Law Policy, Biotechnology, and Bioethics at Harvard Law School and the Food and Drug Law Institute are pleased to announce an upcoming collaborative academic symposium:

**Emerging Issues and New Frontiers for FDA Regulation**

**Monday, October 20, 2014**
Washington, DC

Topics may include:

- Stem cell therapies
- Nanotechnologies
- Genetic (and biomarker) tests
- Gene therapies
- Personalized medicine
- Comparative efficacy research
- Drug resistant pathogens
- Globalized markets
- Tobacco
- GMO
- Bioterrorism countermeasures
- Mobile health technologies
- Health IT
- Drug shortages
- Other related topics

For questions, contact Davina Rosen Marano at dsr@fdli.org.

Look for more details on these events in future editions of this newsletter, or follow us on Facebook and Twitter to receive updates as soon as they're available!

**Outside Events**

**2014 Summer Institute for Informed Patient Choice**

**The Legal and Ethical Implications of Keeping Patients in the Dark**

**June 25-27, 2014**
Dartmouth, Hanover, NH
The 2014 Summer Institute for Informed Patient Choice (SIIPC), taking place in Hanover, New Hampshire June 25-27, will convene medical, legal, ethics, and policy professionals and patient advocates around the individual and systems-level consequences of the lack of transparency and patient involvement in health care (i.e. "keeping patients in the dark"). Aims include facilitating a deeper understanding of the importance of greater transparency in health care; engaging in joint learning about innovative health care delivery methods to promote patient-centered care; and spreading innovative solutions such as value-based purchasing.

The program for this CLE and CME credit eligible event features a dynamic roster of over 20 confirmed speakers, two round robin style poster presentation sessions, and moderated small group working sessions during which breakthrough ideas will be channeled toward tangible outcomes such as a future special section in the Journal of Law, Medicine & Ethics.

For more information, including the full program and registration information, visit the website.

Cosponsored by the Dartmouth Center for Health Care Delivery Science; the American Society of Law, Medicine, and Ethics; Informed Medical Decisions Foundation; the Dartmouth Institute for Health Policy and Clinical Practice; BMJ; and emmi solutions.

Lawyers & Clinicians: Ethical Obligations to Older Adult Clients & Patients
Hamline Health Law Institute
July 9, 2014, 5:30 - 7:00pm
Hamline University Anderson Center Room 111 & Live Webcast

Featuring Professor Susan Martyn, University of Toledo
Approved for 1 Ethics CLE Credit (Code: 192802)

Description:
Representing older adults presents especially difficult and tricky ethical questions. For example, who is your client: the elderly individual or her adult child? What do you do when your client is clearly incapacitated? What do you do when you suspect, but are not sure, that your client is incapacitated?

The presenter, Susan R. Martyn, is a national authority on issues of legal ethics and has served on two of the most important national bodies to shape the law governing lawyers in the past twenty years. Professor Martyn will review Minnesota Rules of Professional Conduct 1.2, 1.6, and especially 1.14. Notably, the program will be interactive and will engage the audience. The program will be built around brief hypothetical situations designed to reveal the relevant professional rules and principles that guide lawyers, physicians, and other clinicians who represent and treat older adults.

Opportunities at Harvard

NEW POST
Student Internship Program
Petrie-Flom Center, Harvard Law School
Open until filled.

The Petrie-Flom Center for Health Law Policy, Biotechnology, and Bioethics at Harvard Law School is seeking student interns for the fall 2014 semester. Availability to start by August 4, 2014 is preferred, but later start dates will be considered on an individual basis; please indicate your availability in your application materials. We may
consider extension through Spring 2015 if there is mutual interest.

Who is eligible?
Harvard undergraduate and graduate students with an interest in the Center's work are eligible to apply. More information about the Center is available at our website. The internship is open to students in all disciplines, but we particularly welcome applications from students studying health policy, philosophy, bioethics, law, medicine, business economics, and the sciences. We are also interested in receiving applications from students interested in technology and communications.

What will the internship entail?
PFC Student Interns will support the Center primarily through communications and office work. Under the supervision of the Executive Director and Administrative Director, interns will assist with various projects, including:

- Blog maintenance at Bill of Health, and possibly weekly news round-ups or substantive posts;
- Management of social media accounts on Facebook and Twitter;
- Drafting of bi-weekly email newsletter using Constant Contact;
- Website maintenance and content development, including identification of key topical resources for those interested in the field, career-related resources, and relevant programs, centers, courses, etc. around Harvard and beyond;
- Tracking news related to the Center and its areas of interest;
- Assistance with event coordination, advertising, and preparation.

Interns are encouraged but not required to attend Center events, which are generally held weekly throughout the semester. Unless agreed upon in advance as a work assignment, students will not be paid for hours spent at Center events.

Interns will be paid commensurate with their experience and assigned duties. Please note: Preference will be given to students who qualify for work-study.

Hours may vary week to week depending on the Center’s needs, but due to an employee on leave in the fall interns should expect to work 10 hours per week.

Please note that the student internship is distinct from the Petrie-Flom Center Student Fellowship Program, which entails participation in Center events and the completion of a piece of independent scholarship. The Student Fellowship, in contrast to the internship, is open only to Harvard graduate students. More information on the fellowship program is available here: http://www.law.harvard.edu/programs/petrie-flom/fellowship/student_apply.html.

How to Apply?
To apply to the Petrie-Flom Center Student Internship Program, please submit the following materials:

- Resume or curriculum vitae;
- Academic transcript (unofficial is fine);
- Statement of interest and relevant background (two or three paragraphs; please indicate if you have particular expertise or experience related to the tasks described above, as well as if you are available for the full year or only one semester);
- Optional: short writing sample (less than 5 pages).

Materials should be submitted to petrie-flom@law.harvard.edu. Please contact Cristine Hutchison-Jones, Administrative Director, chutchisonjones@law.harvard.edu, with any questions.

Faculty Leader for Proposed Master's Degree Program in Bioethics

Center for Bioethics, Harvard Medical School

Deadline: Friday, June 27, 2014, 5:00pm

Harvard Medical School’s new Center for Bioethics is pleased to announce a Request for Applications for a non-
tenure track faculty position to finalize planning and facilitate the approval process for a proposed Master's degree program in Bioethics at Harvard Medical School. Upon approval, the faculty member would assume the role of director of the program. A draft template for this proposed program is already in process, and the faculty leader will have the opportunity to add creative elements to the template as it continues to be reviewed by HMS and Harvard University. An innovative affiliation with the Petrie-Flom Center at Harvard Law School is also currently under discussion.

We are seeking an individual with a strong portfolio of scholarship in bioethics, a track record of administrative accomplishment in program development and implementation, a passion for teaching and mentoring, and excellent collaborative skills to interface with multiple faculties and programs. A strong background in academic bioethics is essential, along with a background in clinical medicine and/or medico-legal issues (all applicants should have an M.D., Ph.D. or J.D.), with the best candidates combining at least two of these three areas. Applicants must meet the requirements for a faculty appointment at Harvard Medical School at the rank of Instructor, Assistant Professor or Associate Professor. The position is defined as full time (1.0 FTE) in the Center for Bioethics (a clinician could continue clinical work one day per week), and applicants should be prepared to start as soon as possible in Fall 2014.

The goal is to enroll the first class of students in Fall 2015 in what is planned as a flexible program offering options for time to completion of degree. Classes will generally be offered in the late afternoon/early evening, allowing people with careers to continue full-time employment while pursuing the degree. The incumbent will have responsibility for all aspects of the program, from engaging faculty course directors to recruiting students to personally direct certain core courses. Over time, specialty "tracks" are planned for students who would like to concentrate in a specific area; the first of these tracks, already under discussion, would be a Health Law and Policy track in collaboration with the Petrie-Flom Center at Harvard Law School.

Interested applicants should send a detailed letter of interest and a C.V. to Christine Moreira (Christine.Moreira@hms.harvard.edu) no later than 5:00 PM on Friday, June 27, 2014. Those selected for interviews will be asked for additional materials, including three letters of recommendation.

If you have any questions, please feel free to contact Dr. Edward M. Hundert, Associate Director of the Center for Bioethics, at edward_hundert@hms.harvard.edu. We look forward to reviewing your application.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, or any other characteristic protected by law.

**Research Assistant**

**Petrie-Flom Center, Harvard Law School**

Open until filled.

The Petrie-Flom Center for Health Law and Policy, Biotechnology and Bioethics, seeks a part-time research assistant for project collaboration with Harvard Catalyst (Harvard Clinical and Translational Science Center) on challenges and innovation in human subjects research, addressing such issues as privacy and big data, research access to PHI, health information in the Cloud, the use of social media, and involving vulnerable populations. The work will initially involve 6-12 hours per week for 3 months. Applicants who have completed at least one year of a law program or health policy or related program are particularly encouraged to apply. Please contact Robin Pierce, J.D., Ph.D. at r pierce@law.harvard.edu.

Jobs, Fellowships, and Other Opportunities
NEW POST
Health Law and Policy Fellow
Center for Health and Law Studies
Open until filled.
SLU LAW is seeking applicants for a full-time Health Law and Policy Fellow and Instructor in the Center for Health Law Studies. The position is a one year, non-tenure-track faculty appointment at the rank of Instructor. It is funded through a contract with the Missouri Foundation for Health. For more information, please click here.

NEW POST
Call for Papers: 8th Postgraduate Bioethics Conference 2014
University of Southampton
Deadline: June 30, 2014

The Conference is a two-day event, designed to give opportunities for doctoral researchers involved in bioethical research to present their current work. The conference will also include four keynote addresses from senior scholars in their respective fields and two workshops, entitled ‘Bioethics in Practice’ and ‘Publishing in Bioethics’. Confirmed keynote speakers include Professor John Bryant (University of Exeter/University of Cambridge), Professor Bobbie Farsides (Brighton and Sussex Medical School), Professor John Harris (University of Manchester), Professor Jonathan Montgomery (Chair of Nuffield Council on Bioethics, Chair of Health Research Authority and UCL) and confirmed workshop speakers include Professor Ruth Chadwick (University of Cardiff/University of Manchester), Dr John Coggon (University of Southampton), Dr Sara Fovargue (University of Lancaster) and Professor David Hughes (Swansea University).

The Conference organisers welcome submissions from a range of disciplines relevant to bioethics including, but not limited to, medical ethics, medicine, healthcare, life sciences, philosophy, social sciences, law and public policy. Submissions should be e-mailed to the conference organisers Emma Nottingham and Alexander Chrysanthou by 30th June 2014 to: postgrad.bioethics@outlook.com Abstracts should be in English, no more than 300 words, and in Word or preferably PDF format. Please note that you must be a registered postgraduate student, and we will only accept abstracts sent from a valid institutional email address. There will be an opportunity for those not giving a paper to register as attendees as soon as the call for papers ends.

It is hoped that registration will be free for participants and attendees. The Postgraduate Bioethics Conference cannot cover the cost of travel and accommodation. Limited places for accommodation and breakfast in halls of residence will be available at a discounted rate.

NEW POST
Summer Program on Emerging Issues in Food and Drug Law
O’Neill Institute for National and Global Health Law, Georgetown University
Deadline: July 14-18, 2014

Please join the O’Neill Institute for National and Global Health Law at Georgetown University for a one-week intensive summer institute exploring the domestic and international legal, regulatory, and policy framework shaping the safety and availability of foods and medicines worldwide.

Program Fees
Regular Attendees

- Middle/Low-income Countries: $1,825
- High-income Countries: $2,500
- Government and Academic Attendees (Current government officials, students, post-docs, and non-tenured faculty)
- Middle/Low-income Countries: $1,575

https://ui.constantcontact.com/visualeditor/visual_editor_preview.jsp?agent.uid=1117661834462&format=html&print=true
High-income Countries: $2,250

**CLE Credit**
CLE credits are available to attorneys admitted to a United States state bar. CLE accreditation is on a state-by-state basis.

**Travel & Housing**
Participants are responsible for arranging their own travel and housing. A short list of area hotels can be found here.

**Certificate of Attendance**
Participants will receive a Certificate of Attendance from Georgetown University Law Center upon completion of the Summer Program.

**Cancellation Policy**
Registration cancellations and requests for refunds must be received in writing to oneilsummer@law.georgetown.edu by Friday, June 13, 2014.

All refund requests will be charged a $100 administrative handling fee and will be processed after the conference.

NEW POST

**Summer Program in US Health Reform**

**O'Neill Institute for National and Global Health Law, Georgetown University**

**Deadline:** July 21-25, 2014

**Important Dates**
Regular Application Deadline: June 15

**Program Fees**

**Regular Attendees**

- Middle/Low-income Countries: $1,825 ($3,150)
- High-income Countries: $2,500 ($4,485)
- Government and Academic Attendees (Current government officials, students, post-docs, and non-tenured faculty)
- Middle/Low-income Countries: $1,575 ($2,650)
- High-income Countries: $2,250 ($3,985)

**Prices in parentheses are the costs for attending both summer programs ([O'Neill Institute Summer Program on Emerging Issues in Food and Drug Law - July 14-18, 2014](#))**

**CLE Credit**
CLE credits are available to attorneys admitted to a United States state bar. CLE accreditation is on a state-by-state basis.

**Travel & Housing**
Participants are responsible for arranging their own travel and housing. A short list of area hotels can be found here.

All refund requests will be charged a $100 administrative handling fee and will be processed after the conference.

**NEW POST**

**AHCJ-NLM Health Journalism Fellowships**

**Association of Health Care Journalists and National Library of Medicine**

**Application Deadline: July 28, 2014**

The Association of Health Care Journalists has teamed up with the National Library of Medicine to present the AHCJ-NLM Fellowships. AHCJ will select four journalists to spend a week on the campus of the National Institutes of Health in Bethesda, Md.

The selected journalists will:

- Learn how to explore the latest NIH research
- Learn to understand and interpret biomedical statistics
- Take advantage of NLM’s data, programs and resources for stronger stories
- Get hands-on training in PubMed, MedlinePlus, ClinicalTrials.gov, ToxNet and Household Products Database

Enhance your medical and scientific reporting throughout this specialized fellowship.

Candidates should be working journalists who qualify for AHCJ membership. Please check here to see if you qualify.

This fellowship includes the following:

- AHCJ membership (new or renewed)
- Travel expenses (within the US)
- Food stipend
- Lodging Sept. 7-11

**The application deadline is July 28. Apply online here.**

Questions? Contact Ev Ruch-Graham, ev@healthjournalism.org or 573-884-8103.

**NEW POST**

**Senior Researcher (Associate Professor) in Medical Ethics**

**Nuffield Department of Population Health, University of Oxford**

Open until filled.

**Job Title:** Senior Researcher (Associate Professor) in Medical Ethics

**Division:** Medical Sciences

**Department:** Nuffield Department of Population Health

**Group/Unit:** The Ethox Centre

**Location:** Old Road Campus, Headington, Oxford

**Grade and Salary:** Grade 10: £50, 688 - £58,739 p.a. with a discretionary range up to £64,171 p.a.

**Hours:** Full time
**Contract type:** Fixed-term for 5 years

**Vacancy reference:** 111316

[Apply Online]

**NEW POST**  
**Health Law Fellowship, 2014-2015**  
**Yale Law School**  
Open until filled.

Yale Law School is seeking to hire a Senior Fellow in Health Law, who will taken on director-type responsibilities for YLS's health program, including conference and event development and management, fundraising and policy-paper writing. The fellow will also have the option of devoting some time to either teaching or his/her own scholarship or policy work. **The position is available immediately and, although initially a one-year position, may continue longer term if it proves a good fit.** Interested applicants should email their CV and references to abbe.gluck@yale.edu.

**NEW POST**  
**Reporting Fellowships on Health Care Performance**  
**Association of Health Care Journalists (AHCJ)**  
**Deadline:** October 1, 2014

The [AHCJ](#) Reporting Fellowships on Health Care Performance is a yearlong program allowing journalists to pursue a significant reporting project related to the U.S. health care system. It can be local or national in scope, or a little of both - say an aspect of the Affordable Care Act playing out in your community or subject specialty, or the impact of particular evidence-based treatments on health outcomes, or an analysis of a health care organization's performance, using public data sets. Fellows pursue the projects with the support of their newsrooms or freelance outlets, which commit to publish or air the work.

Guidance is provided by AHCJ fellowship leaders through customized seminars on health care systems, conference calls and email consultations. The fellowship covers the cost of attending the seminars and AHCJ conferences, and a $4,000 project allowance is available to defray the cost of field reporting, health data analysis and other project-related research. In addition, each fellow will receive a $2,500 fellowship award upon the successful completion of the project.

**Call for Papers: Rutgers Journal of Bioethics**  
**Bioethics Society of Rutgers University**  
**Deadline:** September 15, 2014

**Paper Submission**  
Bioethics Society Mission Statement: As members of the Bioethics Society of Rutgers University, we hope to raise general awareness of issues in bioethics within the Rutgers community by method of discussion and publication. Although the beliefs and opinions regarding bioethical issues of this group are not unanimous, we are united by our ardent belief that the student population at Rutgers should be made aware of the implications of biological research, medicine, and other topics of bioethical controversy.

Journal Purpose: In order to bring to light these issues, we are now accepting any papers that fall under the vast umbrella that is bioethics. All papers will be considered for possible publication. Some example subjects are abortion, animal rights, eugenics, gene therapy, human cloning, medical malpractice, and healthcare policy, however you are not limited to these topics.
Deadline: September 15th, 2014

This is open to all academic disciplines.

Please include the following in your submission:

Cover Sheet: Article Title, Author Name(s), Institutional Affiliation, Date of Submission, and a Brief Abstract of the Article (include contact information with e-mail address and phone number)

Article: There are three types of submissions we accept: Global News Clips (up to one page in length), Opinion Editorials, and Research Papers (both up to 3000 words in length). All submissions must be prepared as a Microsoft Word .doc document, double-spaced, Times New Roman 12-point-font, with numbered pages.

Citations: Submissions must be fully referenced in APA styled format. We ask that you do not submit an article with more than 30 citations. It is preferred that the author has a faculty sponsor to mentor their article, however it is not required.

We encourage the submission of term papers.

Send completed papers to RUBioethics.joum@gmail.com Attn: ARTICLE SUBMISSION

Please feel free to contact us with any questions.

Health Law Attorney
Shaheen & Gordon, P.A., Attorneys at Law, Concord, NH
Open until filled.

Shaheen & Gordon, P.A., Attorneys at Law, seek an Attorney with 3-5 years of experience to join our Health Law practice in Concord, New Hampshire. The ideal candidate will have experience working with regulatory issues including HIPAA, Stark Law, Anti-kickback, ADA and Medicare and Medicaid regulations. Experience in business matters such as physician contracting, managed care contracting, employment and corporate law issues is desired. Salary commensurate with experience. Excellent benefits.

Please forward cover letter, Curriculum Vitae, references and salary requirements to D. Michael Noonan, Esq., Managing Director at mnoonan@shaheengordon.com or via regular mail: P.O. Box 977, Dover, New Hampshire 03821-0977.

Post-Doctoral Fellowship in Biomedical Ethics Research
Mayo Clinic, Rochester, MI
Open until filled.

Position Start Date:
As negotiated with the successful applicant.

Qualifications:
Ph.D. or other terminal degree (J.D., M.D.) with experience in bioethics. Must have excellent written and oral communication skills. Experience with normative bioethics analyses, survey methodologies, policy research (particularly issues in new technologies and medical innovations) is highly desirable.

Responsibilities:
This is a full-time position, with initial appointment for one year. With successful performance the position is renewable.
The incumbent will work under the guidance of Richard Sharp, Ph.D., in the Mayo Clinic Biomedical Ethics Program. The incumbent will oversee research projects and will be a full participant in data collection, analysis
and publication. Areas of study include ethical and social issues in translational research and integration of new technologies into patient care, including topics such as stem-cell based therapeutics, novel forms of transplantation and regenerative medicine, ethical issues in genomic medicine, and DNA biobanking.

Compensation will be based on Mayo Clinic guidelines and set by number of years of experience post degree.

You may apply online to job posting 36256BR on the Mayo Clinic jobs website (http://www.mayoclinic.org/jobs). Please submit 1) a letter summarizing your research experience and interest in the position, 2) your curriculum vitae, 3) a brief professional writing sample, and 4) the names and contact information only for three potential referees (do not solicit reference letters unless requested).

The Mayo Clinic Biomedical Ethics Program provides institutional and national leadership on ethical issues raised by translational research and integration of new medical technologies into patient care.

MAYO CLINIC is an integrated, multidisciplinary academic medical center with comprehensive programs in medical education and research. The group practice consists of over 3,800 staff physicians and scientists across all locations working in a unique environment that brings together the best in patient care, groundbreaking research and innovative medical education. Mayo Clinic has been recognized by Fortune magazine as one of the "100 Best Companies to Work For." It is consistently recognized by U.S. News and World Report as one of America's "Best Hospitals."

Rochester is the largest city in Minnesota located outside of the Minneapolis/St. Paul metropolitan area. Its diverse atmosphere supports rich culture & entertainment and exciting outdoor & athletic opportunities while providing the comfort of small city living. Rochester and Mayo Clinic are part of Destination Medical Center, an innovative economic development initiative to secure Minnesota's status as a global medical destination now and in the future.

Additional opportunities:

- Research Assistant, BWH Department of Medicine, The Division of Pharmacoepidemiology and Pharmacoeconomics, open until filled. Please send cover letter and resume to askdope@partners.org.
- Senior Lecturing Fellow/Associate Director of Engagement, Science & Society at Duke University, open until filled. Applicants should submit a cover letter, CV, an example of scholarly work, and contact information for three references to Julia Walker (julia.s.walker@duke.edu).
- 2014 Causal Inference Workshops: Main and Advanced; Northwestern University and Duke University, registration open until filled.
- Postdoctoral Fellow to provide quantitative analytical support for Public Health Law research, Temple University Beasley School of Law, open until filled.
- Summer Internships, Axiom Law, contact recruitment manager Sutton Kraus at Sutton.Kauss@axiomlaw.com, open until filled.
- International Conference on End of Life: Law, Ethics, Policy, and Practice, Health Law Research Centre, Queensland University of Technology, Australia

We share announcements of jobs and fellowships and calls for proposals as they are received. We generally include detailed descriptions for one month, or two cycles of the newsletter; after one month we share titles and deadlines along with a link to the item's online description, when available, until the deadline passes. If you have opportunities that you would like to share via the Petrie-Flom newsletter, please contact Administrative Director Cristine Hutchison-Jones at chutchisonjones@law.harvard.edu.
