

Last week, we [announced](#) a new research initiative, [*Diagnosing in the Home: The Ethical, Legal, and Regulatory Challenges and Opportunities of Digital Home Health*](#), supported by the [Gordon and Betty Moore Foundation](#). This three-year project will seek to promote the translation of diagnostic medical services into home health care through regulatory and ethical frameworks. We are also excited to be hiring a research fellow to support this work and join the PFC team! Learn more about [the position and how to apply on our website](#).

This week marked the [first installment](#) of our joint seminar series with the [Solomon Center](#), *COVID-19 and the Law: Disruption, Impact, and Legacy*. Be sure to check out the [upcoming installments of this series](#) on our [event page](#). Next week, you won't want to miss our upcoming event, [*Medical Stereotypes: Confronting Racism and Disparities in US Health Care: A Health Policy and Bioethics Consortium*](#), organized in collaboration with the [Harvard Center for Bioethics](#).

Spotlight on Scholarship

Ethical, Legal, and Social Implications of Deep Phenotyping

This digital symposium explores the ethical, legal, and social implications of advances in deep

phenotyping in psychiatry research.
