

Join us on April 9th for [Locked in a Hot Box](#), a critical examination of how climate change impacts people who are incarcerated. Many jails and prisons are inadequately equipped to handle extreme weather, exposing people who are confined within them to unique health vulnerabilities. Addressing prison infrastructure law and policy in the era of climate change, speakers will consider what policy changes at the intersection of environmental justice and prison reform would help mitigate risks and increase awareness.

Apply to be a [Petrie-Flom Student Intern](#)! We are seeking a student intern for the summer of 2024. Undergraduate and graduate students with an interest in the Center's work are eligible to apply. Learn more [here](#).

Applications for our 2024-2025 Petrie-Flom Student Fellow cohort are ongoing. Learn more about our fellowship program [here](#). For more information on our recent fellows and their work, see our [website](#) and check out their writing on the Petrie-Flom Center's blog, [Bill of Health](#).

Get ready for [Neuroscience and Cannabis: Implications for Law and Policy](#) on April 18th. Neuroscientist Dr. Yasmin Hurd and Senior Fellow Dr. Stephanie Tabashneck explore the science of cannabis, CBD, and the future of substance use disorder treatment.

Looking for another way to stay up to date with us? Follow the [Petrie-Flom Center on Instagram](#)! Our new [Instagram](#) account will feature upcoming events, open opportunities, event photography, and more.

Designer Babies? The Ethical and Regulatory Implications of Polygenic Embryo Screening

New technologies are increasing the accessibility of polygenic embryo screening, which can assess the likelihood of an embryo developing polygenic diseases or provide insight into certain polygenic traits. This procedure has many complex clinical, social, and ethical implications, but is currently unregulated in the U.S.
