

As the academic term wraps up, the Petrie-Flom Center is reflecting on our year while getting ready for a busy summer. To revisit our event calendar, you can access our fully captioned event videos on [YouTube](#), or visit our [event archive](#) for 2023-2024 content, panelists, and recordings.

The edited volume, [Digital Health Care outside of Traditional Clinical Settings: Ethical, Legal, and Regulatory Challenges and Opportunities](#), based on the Petrie-Flom Center's 2022 Annual Conference, is now published! Learn more [here](#).

Please join us on June 24th, online or in-person, for [Speaking of Psychedelics: A Conversation with Ayelet Waldman](#). Ms. Waldman will engage in a broad discussion on the origins and impact of her memoir, *A Really Good Day: How Microdosing Made a Mega Difference in My Mood, My Marriage, and My Life*, how the psychedelic landscape has changed since its publication, and the future of psychedelics in medicine, law, and society. She will be joined in conversation by Petrie-Flom Center's I. Glenn Cohen and Mason Marks. For attendance information, [click here](#).

New Edited Volume

Digital Health Care Outside of Traditional

Clinical Settings: Ethical, Legal, and Regulatory Challenges and Opportunities

Health care delivery is shifting away from the clinic and into the home. Even prior to the COVID-19 pandemic, the use of telehealth, wearable sensors, ambient surveillance, and other products was on the rise. In the coming years, patients will increasingly interact with digital products at every stage of their care, such as using wearable sensors to monitor changes in temperature or blood pressure, conducting self-directed testing before virtually meeting with a physician for a diagnosis, and using smart pills to document their adherence to prescribed treatments. This volume reflects on the explosion of at-home digital health care and explores the ethical, legal, regulatory, and reimbursement impacts of this shift away from the 20th-century focus on clinics and hospitals towards a more modern health care model.
