

To wrap up an academic year of timely and informative events, the Petrie-Flom Center will close the spring semester with two more topical discussions.

On May 17th, our [Project on Law and Applied Neuroscience](#), a collaboration with the Massachusetts General Hospital Center for Law, Brain and Behavior, will host a [discussion of addiction neuroscience, prognosis, and treatment](#).

Later that week, on May 20th, we will host a panel on how to [protect the most vulnerable amid the ongoing COVID-19 pandemic](#). The conversation will feature experts in disability law and infectious disease to address flagging public, political, and judicial support for key health protections.

We hope to see you at these webinars. Can't fit them into your calendar? Don't despair! All of our events are recorded, captioned, and published on our [YouTube channel](#). Check out our [playlist of 2021-2022 events](#)!

Want to get more involved with the Center? Harvard graduate students can apply to our 2022-2023 Petrie-Flom Student Fellowship. The application is now open for priority consideration for Harvard Law students through May 27. Other Harvard graduate students will be eligible to apply over the summer during our general round. Read more about the fellowship and application requirements on the [application page](#).
