You can also watch the conference kick-off event, [Speaking of Psychedelics: A Conversation with Ayelet Waldman](#) featuring I. Glenn Cohen and Mason Marks.

Thank you to all who came together for Psychedelics Bootcamp 2024! During three intense days on the HLS campus, 55 participants and 24 instructors engaged deeply with issues of psychedelics law, medicine, research, regulations, advocacy, and more. PFC plans to offer this program again in the future.

## ***Spotlight on Scholarship***

## **Research Handbook on Health, AI and the Law**

The *Research Handbook on Health, AI and the Law* explores the use of AI in healthcare, identifying the important laws and ethical issues that arise from its use. Adopting an international approach, it analyses the varying responses of multiple jurisdictions to the use of AI and examines the influence of major religious and secular ethical traditions.

*Supported by a generous Novo Nordisk Foundation Grant (NNF23SA0087056) for a scientifically independent International Collaborative Bioscience Innovation & Law*
